

The Three Ecologies

with Erin Manning & Brian Massumi

Friday, December 17th 2021, 6-8pm (CET)

Public Session of the Reading Circle “Poststructuralism-Gender Theory-Psychoanalysis”
Online-Workshop

In *The Three Ecologies* (1989) Félix Guattari outlined his unique concept of ecosophy, a connection of three ecological realms: environmental, social, mental ecology. He pleads for a transversal understanding of ecology and therefore develops an ethico-aesthetic program in times of Integrated World Capitalism (IWC).

We invite you to this public workshop of the Reading Circle (Research Group “PS-GT-PA”) where we will discuss the text with Erin Manning and Brian Massumi.
